### DESCRIPTIONS:

CARBOND 940FC is a high quality single component fully elastic Polyurethane sealant.

#### APPLICATIONS

- o Supple bonding in vibrating constructions and car bodies
- o Sealing and bonding applications in construction and industry
- o Floor joints
- o Bonding of spoilers, wheel arches
- o All applications which need to be painted with water based paints

#### CHARACTERISTICS

- o Very strong primerless bond on aluminium, stainless steel, epoxy coatings, polyester, GRP and many other substrates (do not use on glass; PVC, PE, PP, PFTE)
- o Permanently elastic after cure
- o Paintable with many different types of paints
- o Can be sanded
- o Resistant to many solvents
